## FREE 2 hours verifiable CPD (for you and your team)

The evening is hosted by Dr Puneet Jain. This event is an open clinic, an opportunity to ask Puneet about any matters relating to dental implants and how to approach both the surgery and the restoration. You can discuss your case studies or raise any clinical issues for which you'd value his expert view.

Equally, these sessions are on open forum to discuss all topics regarding the patient journey for dental implant cases, both clinical and non-clinical. If you have any questions relating to the latest in dental implantology, then this will be the perfect time to ask.

All this and a wonderful curry and beverage at Bhaijaans, along the Birmingham Road, near to us. The Sutton Implant Clinic is supported by Straumann.
